Benefits for service

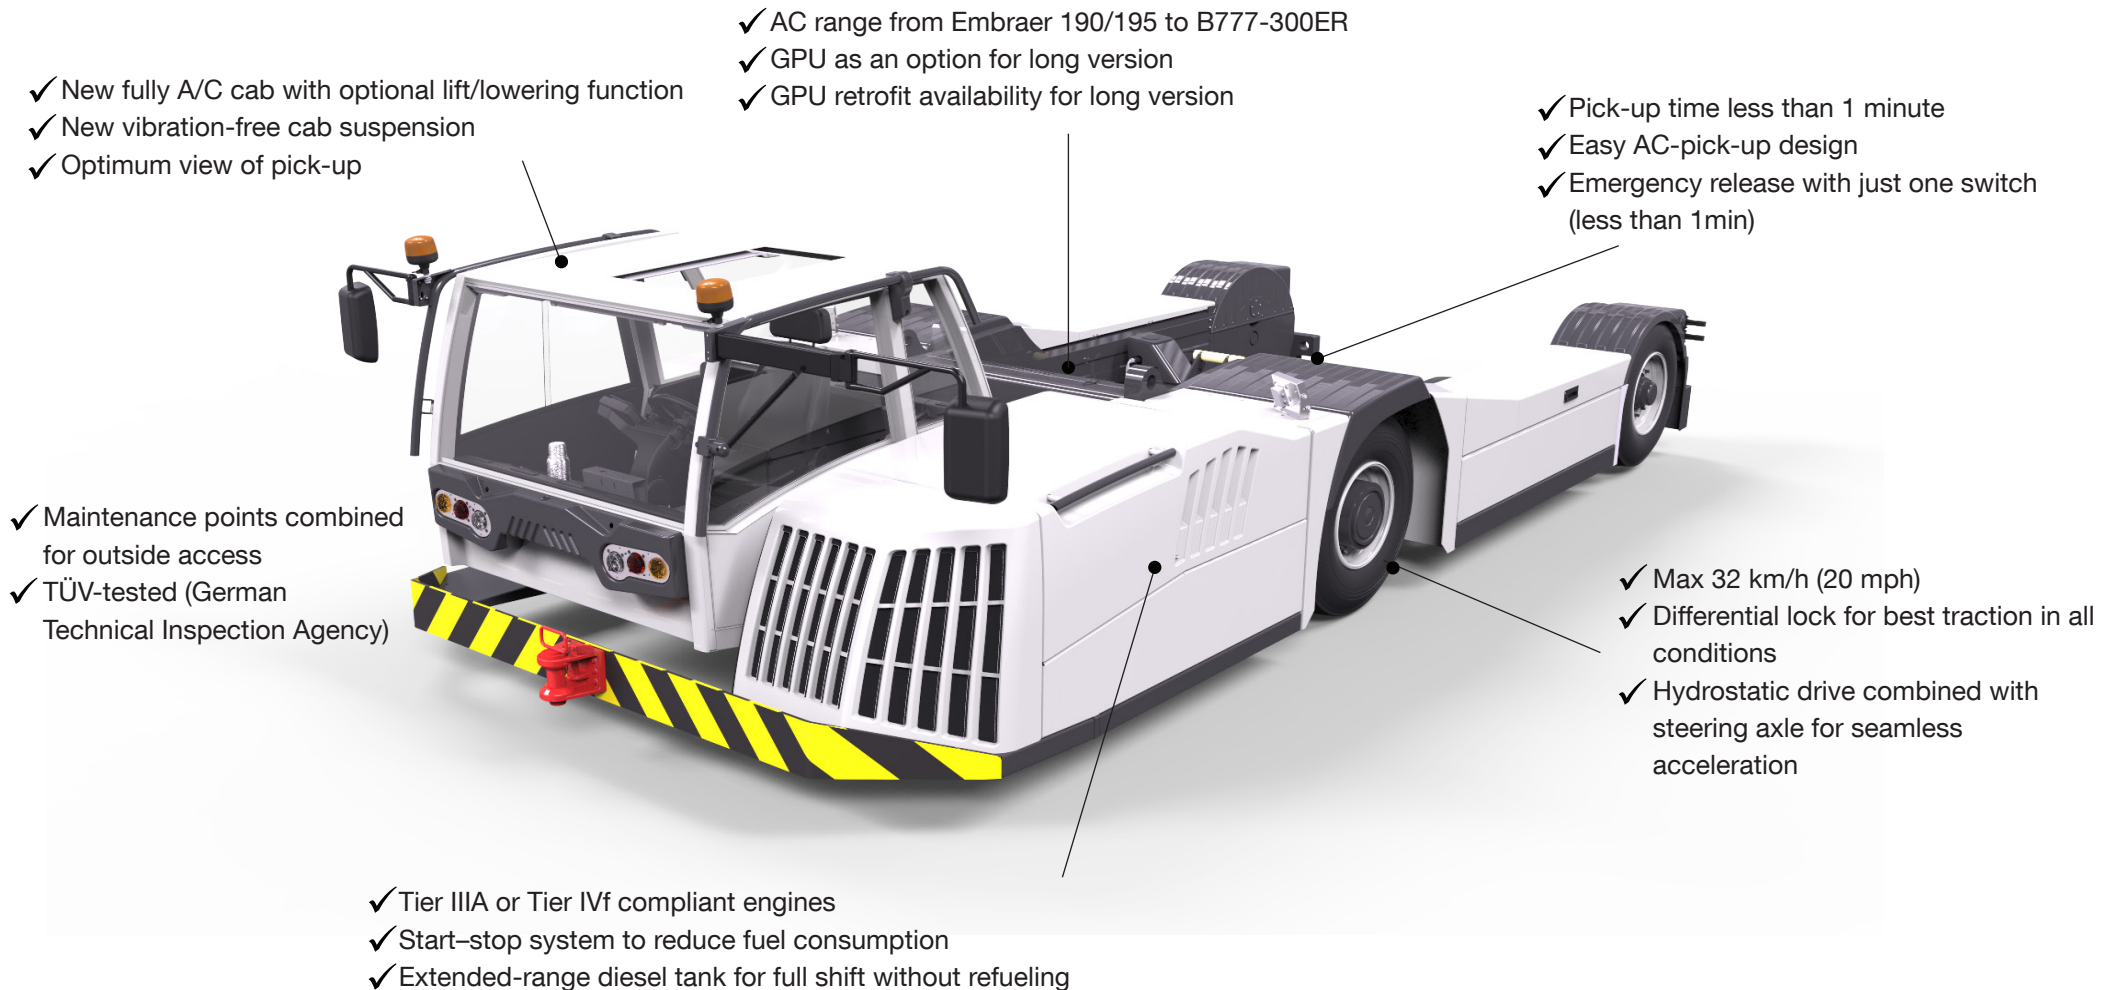

- ✓ Maximum availability thanks to minimum maintenance
- ✓ Ease of maintenance thanks to optimum access to all maintenance points
- ✓ Highest standard of safety through function testing and TÜV (German Technical Inspection Agency) certification

BEST IN-SERVICE RATE!

THE NEW AST-2P/X

ALL THE BENEFITS AT A GLANCE

The new AST-2P is the 4th generation version of the successful AST-2 – with a P for top Performance. This intelligent model satisfies in full all the requirements of an aircraft tow tractor of the latest generation. For operators who want better acceleration and a higher towing speed, the new AST-2 is also available in an X-tended version with more horsepower.
